

What Are We Waiting For – Lyrics – Tim Mahoney

We've been wasting so much time thinking bout the days as they roll by  
I think honestly our society is so wrapped up in what we used to be yeah  
that we've forgotten who we are

We've been livin out our lives focused on the surface of our pride  
There's a part of me with a history to never give a care what a fellow brother sister needs  
ya  
we've got to move along  
so don't waste more time

What are we waiting for  
what are waiting for  
when all our chips our down there is no score  
what are we waiting for

go go

They say we only get one chance  
everyone can feel the groove but we don't dance  
and we all have dreams that seem out of reach  
until we think there's one to overcome then we finally see  
that it's there in our own hands  
so don't waste more time

what are we waiting for  
what are we waiting for  
when all our chips our down there is no score  
what are we waiting for  
go

don't let the tide slow us down things can change  
don't let it all wash away

what are we waiting for  
what are we waiting for  
when all our chips our down there is no score  
what are we waiting for  
go
